OUR FEATURES

Market Research

Our research revolves around enumerating the elements required for success and identifying investment candidates through which we seek to satisfy those requirements.

Excellence

Our goal is excellence in investing. To us, this means achieving attractive returns without commensurate risk.

Ethical Personnel

A harmonious workplace and a spirit of cooperation are indispensable; personnel turnover, office politics and unhealthy competition are to be guarded against.

Common Interests

To achieve commonality of interests with our clients, we pay strict attention to potential conflicts of interests, avoiding them if possible and dealing fairly with them if not.

Client Communication

Communication with clients must meet their needs and strengthen our relationships with them. We want every client to thoroughly understand our philosophy, approach, actions and results.

Profitability

Our firm's profitability must stem from doing all of the above. Everest is run for the benefit of its clients and their constituencies, as well as for its owners and employees.

FOREIGN EXCHANGE

Forex, also known as foreign exchange or FX trading, is the conversion of one currency into another. It is one of the most actively traded markets in the world, with an average daily trading volume of \$5 trillion leading us to actively capitalize on it.

STOCKS

The market that is most familiar to the average investor is the stock market. This market allows investors to buy and sell shares of ownership in publicly traded companies which we facilitate for investors.

BONDS

The debt market is used by governments, companies, and financial intermediaries to issue debt instruments to raise capital. Prime Associates has limited stakes in this market.

CRYPTOCURRENCY / CFD TRADING

CFD trading are derivatives, which enable you to speculate on cryptocurrency price movements without taking ownership of the underlying coins. You can go long ("buy") if you think a cryptocurrency will rise in value, or short ("sell") if you think it will fall. Our experts leverage highly on this market.

Be prepared to invest in a down market and to "get out" in a soaring market, as per the philosophy of Warren Buffett.
